

August 2020 Public Outreach Coordinator report to the AWSC

- The WSO now has public outreach announcements and discussion opportunities for public outreach coordinators, associate coordinators and others interested. The website has many public outreach resources for groups to access.
- The 2019 Annual Report is available in English, French and Spanish. To view, go to al-anon.org, click on members tab, WSO, then Annual Report.
- There have been many online meetings throughout the state which has given people the ability to stay connected to their recovery groups and participate in meetings they may not have been able to attend before due to travel, expense, scheduling, work or home obligations, etc. We encourage groups to update websites and listings of meetings so current members and newcomers know which groups are meeting online and which groups are now meeting face-to-face or are meeting at alternate locations temporarily.
