Tech Team Report to AWSC

With the Virtual Convention being held in July there was a conscious decision to back off having serial Tech Team meetings. I will be scheduling Tech Team Meeting on the second Thursday of the month until the next Area Assembly. There is an open invitation for anyone interested in participating in technical projects for the Assembly to join our group. Email me at [area22techteam@gmail.com](mailto:area22techteam@gmail.com) to be added to the group's mailing list.

I want to thank the Assembly for providing definitive scheduling information for the next three Assembly Weekends. This will save time on contingency planning for different meeting formats.

Area Assembly now has a Google for non-profits account which allowed us to open a Google for non-profits Workspace account. I am asking for help with developing this new asset. This account has access to a Google Drive that can be shared amongst members. I am not a Google Drive guy, so anyone that has this experience, please come, and join our group. At some point we will be converting from our current email forwarding system provided by our domain provider to having full accounts from Google Workspace that will be provided to AWSC members.

Lots of things brewing in the Technical Universe – but that's enough for now.

Aloha from Slidell, GW
